Sign of Inspector							

* Please return this form for record after the inspection either pass or not.

Notes:

1. The inspection records with the instrument should have the actual number displayed as the result, and

record in the relevant columns. Those passing the inspection will be made a “ ” mark in the column of “Pass”. Those not passing the inspection will be made a “×” mark in the column of “Fail”. Those passing the re-inspection will be made a “ ” mark.

2. Those failing the inspection should be completely repaired to make a re-inspection. Those exceeding the time limit for re-inspection or still failing the re-inspection will be withdrawn the license.
3. For those not passing the inspection, if making re-inspection on the next day, should make a register again but need to pay again; if making re-inspection on the third day or after, should make the register and pay again.
